SEWING TUTOR

The online sewing tutor system is meant for users who are looking for learning sewing from home and those who want to share their tips and tricks to others. This software is not yet reached in a better level. This system will consist of three users, admin, students and the customers who can order for dress. The admin will facilitate the registration and posting the tips and tricks getting from students through their daily projects and provide certification based on the classes they are attended. The students can search stitching materials and can buy .This software will be very helpful for people who are seeking for certified course in stitching and can share their ideas, tips, tricks to others. This system was especially very helpful for women who can't get a chance to learn stitching from an institution.

USER STORIES

1. REGISTRATION FOR STUDENETS: students who want to attend the course can register in this site.

2. CUSTOMER REGISTRATION: people who need a stitched material can register in this site.

3. SEARCHING STICHING MATERIALS: people can login and search for stitching materials according to their preference.
